

Joining TAG's Succession Boot Camp

Gateway TelNet has long been a member of the Technology Assurance Group (TAG) (<http://www.tagnational.com/>), an organization of the leading unified communications companies in North America. We enjoy attending the conferences and workshops, as well as networking with other businesses in the industry.

This past June, a member of our next generation joined TAG's three-day Millennial Succession Boot Camp in San Diego. Among the 11 Millennials invited to participate was our very own Shannon Gomes! They learned about leadership, sales, customer advocacy, financial management, marketing, strategic planning, and life business planning in an interactive workshop environment. Throughout the Boot Camp they were introduced to business concepts, methodologies, and TAG's better practices that are critical to their future success.

If you'd like for Shannon or our team at Gateway TelNet to share any of these business and industry insights, just send us a line! <http://www.gatewaytelnet.com/contactUs.aspx>
